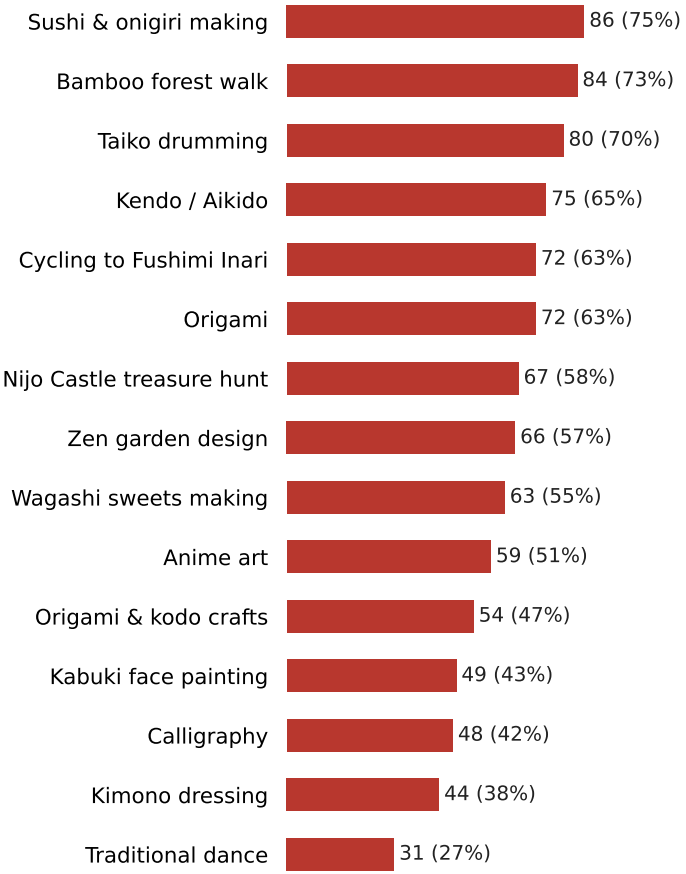
Your favourites (% of families)

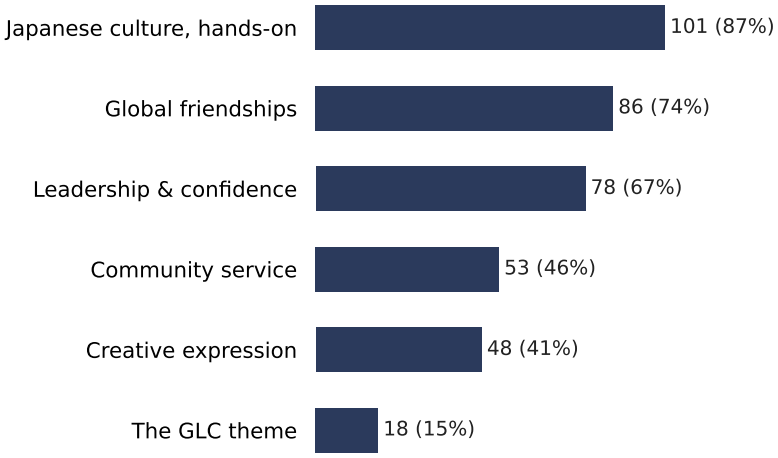


Also requested: tea ceremony, knife-making, a ninja experience, street food, Pokémon.

3 · MyEO Families programme for kids during GLC

What you want the MyEO Families days to be about

What matters most to you (up to three per family)

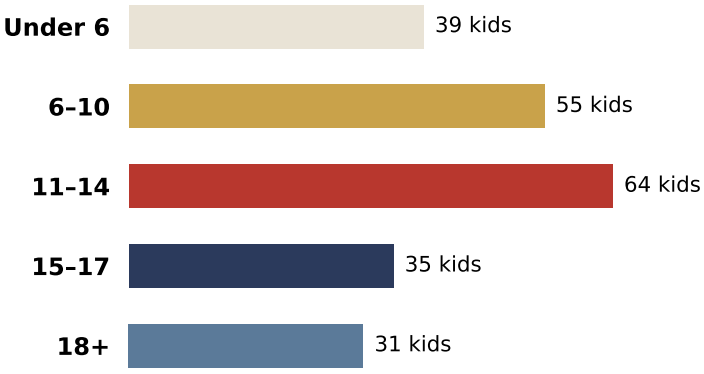


Culture first, then friendships and confidence. Our MyEO Families activities during GLC will be built around hands-on Japanese experiences, with time for kids to connect across chapters and a leadership element for the older ones.

4 · By age group

Three groups, plus Next Gen for 18+

All children named in the survey



Three MyEO Families age groups (154 children) plus 31 young adults who join MyEO Next Gen. Under-6s join family activities with their own caregiver.

6–10 · Playful and hands-on

Kabuki face painting, origami and zen gardens are the favourites. Short, varied sessions; kimono dressing is loved as a shared family moment.

11–14 · Active and social

Our biggest group. Taiko, Kendo/Aikido and origami lead; anime art peaks here. Fushimi Inari cycling is the top family activity (78%). Workshops, movement, team challenges.

15–17 · Meeting peers, experiencing Japan

Taiko, martial arts, sushi-making and cycling. Parents' top goals: global friendships and leadership. Dedicated teen activities with time to connect with EO teens.

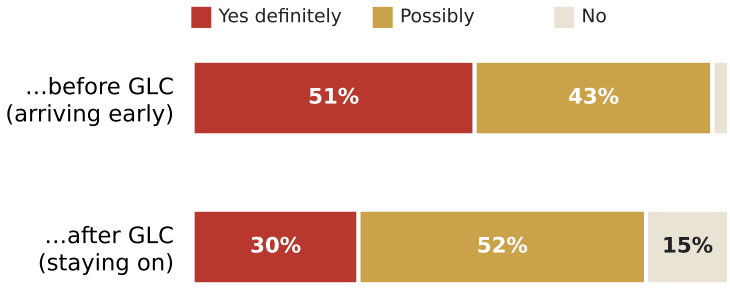
18+ · MyEO Next Gen

Young adults join the MyEO Next Gen activities in Kyoto, with their own agenda alongside the MyEO Families activities.

5 · Before and after GLC

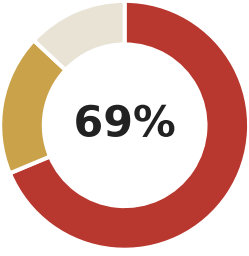
Interested in MyEO Families activities around the conference?

Would you join organised family activities…



Half of you would definitely come early, and only 3 families say no to activities before GLC. A third would definitely stay on. We are planning MyEO Families activities in both windows.

Will your life partner also attend GLC Kyoto?



- Yes (79)
- Not sure yet (21)
- No (15)

Two thirds of partners plan to come, so family activities will often include both parents.
